

Ansh Jindal

+91-9997777401 | digitalansh@gmail.com | [LinkedIn](#) | [LeetCode](#) | Agra, Uttar Pradesh, India

EDUCATION

Vellore Institute of Technology, Bhopal

Bhopal, Madhya Pradesh

Bachelor of Technology in Computer Science and Engineering; CGPA: 8.69/10.0

Expected May 2026

- Relevant Coursework: Data Structures, Computer Networks, Operating Systems, Database Management Systems, Object-Oriented Programming

Delhi Public School, Agra

Agra, Uttar Pradesh

Class XII: 94% — Class X: 92%

May 2022

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, SQL, HTML, CSS

Frameworks & Libraries: React, MongoDB, Material-UI

Developer Tools: Git, Figma, NetBeans, Visual Studio Code

Technologies: MySQL, Cloud Computing, Oracle Cloud Infrastructure, OOP, Operating Systems

PROJECTS

Sociopedia: Full-Stack Social Media Platform | *MongoDB, Express.js, React, Node.js, JWT* | [Link](#) Feb 2025

- Architected and developed a full-stack social media application handling user authentication, post creation, and real-time interactions using MERN stack with 5000+ lines of production-grade code
- Engineered secure RESTful API endpoints with JWT-based authentication for user management, post creation, and real-time comment updates, ensuring scalable and maintainable backend architecture
- Optimized MongoDB database performance through strategic indexing and query optimization, achieving 40% reduction in query response times and improved application scalability

Converge: Real-Time Video Calling Application | *MERN Stack, Stream SDK, WebRTC* | [Link](#) Feb 2025

- Built enterprise-grade video conferencing application integrating Stream API for real-time audio/video communication with zero access control issues across 100+ test sessions
- Developed responsive React interface managing complex call states (connecting, active, ended) with real-time synchronization, providing seamless video experience with sub-200ms latency
- Integrated WebRTC protocols with Stream SDK for peer-to-peer connections, optimizing bandwidth usage and video quality

Pharmacy Management System | *Java, NetBeans JFrame, OOP, Database Integration* Nov 2024

- Developed comprehensive desktop application streamlining pharmacy operations including inventory management, billing, and prescription tracking using Java and NetBeans
- Designed intuitive GUI reducing average time for bill generation and inventory checks from 15 minutes to 2 minutes, improving operational efficiency by 86%
- Applied Object-Oriented Programming principles (inheritance, encapsulation, polymorphism) creating modular, maintainable codebase that enhanced data accuracy and minimized manual errors

ACTIVITIES & ACHIEVEMENTS

Smart India Hackathon (SIH) | *React, Material-UI, Team Leadership* Sep 2024

- Led front-end development for AI-powered chatbot solution proposed for Government of Rajasthan's citizen services portal, managing team of 4 developers
- Developed responsive and accessible user interface using React and Material-UI following WCAG 2.1 guidelines, successfully advancing team through internal university selection round

TCS CodeVita Global Competitive Programming Challenge 2024

- Achieved rank 10,574 (Top 52%) among global participants in Pre-Qualifier round, demonstrating strong problem-solving and algorithmic skills
- Qualified for advanced Qualifier Round (Round 2), competing against thousands of programmers worldwide

CERTIFICATIONS & TRAINING

SmartBridge MERN Stack with MongoDB | Ethnus UI/UX Adobe Certification | Oracle Cloud Infrastructure Foundations Associate | Cloud Computing Certification | Marketing Analytics
